NOTE FOR THE DIRECTOR

FROM: E. H. Knoche STATINTL  
Acting Deputy to the DCI for the  
Intelligence Community

SUBJECT: Press Release on IC Staff

Angus Thuermer's suggestion to issue a press release on a change of location for your Community headquarters is a good one. However, I suggest that it not be issued until we gain control of the new site. We should let the security folks survey the situation and build in the necessary protection against electronic surveillance, which may be more of a problem than it is at Langley. Until we get the building under control it will be vulnerable.

E. H. Knoche

MEMORANDUM FOR: Director of Central Intelligence  
FROM : Angus MacLean Thuermer  
Assistant to the Director  
SUBJECT : Press Release on IC Staff Location

When you decide to change the location of the Intelligence Community staff, you might want to think of a press release.

The best time to have such a press release might be upon the appointment of an IC Deputy.

You might want to have the White House handle this. It might give them a few Brownie points indicating that the President's Executive Order was being implemented with surrounding details, such as "... and Director Bush has said the new Deputy will have his office and staff in the XYZ building located in...".
